OUR PROJECT

Caesar Shiba is a brand new and unique cryptocurrency that is the first to provide a real **backward rewarding system**.

Instead of common tokens that reward only the first investors, **Caesar Shiba reward every new investors as well**.

Thanks to this exclusive reward feature, we will encourage new investors and spread a fair and healthy dispatch of the gains. A higher token price results in a bigger reward, furthermore compensating an eventual risk of investing on a token that is expensive.

This feature is totally unique, and we think this is the missing key that is necessary for newcomers tokens to be competitive with the big ones.

HOW IT WORKS

Caesae LOVES conquests, but HATES impostors. Join us in a campaign against the rebel shibs by investing in our big army. When the enemy town is taken, Caesar will reward the brave soldier that helped him succeed by giving him all the war chest.

PHASE 1: PREPARE FOR WAR

CAESAR will tax all his people to accumulate a war chest: 5% of all the transactions are sent to the CAESAR war chest.

PHASE 3: VICTORY

If no one as bought at least 10000 CSR tokens for 5 hours, the enemy town has been defeated. The last person who has participated in the war will receive all the war chest tokens!

PHASE 2: THE SIEGE

When one person buys at least 10000 CSR tokens, he/she is considered a participant. CAESAR then launches an attack on the enemy town: a timer of 5 hours starts. If someone else buys at least 10000 tokens before the end of the 5 hours, the timer is restarted.

Taxes are still running during the siege: the war chest will continue to grow bigger and bigger until the town has been taken!

TOKENOMICS

TAXES

Taxes are applied to all transactions with:

- 5% to **the Chest**
- 5% to **Marketing** and **Development**
- 5% to **Liquidity Pool**
- Total supply: **100M**
- Max Chest: **3%**

SAFETY

Maximum wallet at **1%** of the total supply will protect us (and you) against:

- Whales
- Big sells
- Bots

OUR TEAM

Our team is made of **Senior Blockchain Engineers, Cryptography Scientists and Security Experts.**

The project has been envisioned from the ground up to have insanely high performance, and be sustainable in the long term.

ROADMAP

FIRST PHASE

Launch

- Whitepaper
- Economics Modeling
- Deployment on Binance Smart Chain
- Website Deployment
- First Partnerships
- Private Sale
- Public Opening
- Brand Building on Social Media
- Massive Advertising Campaign
- Coin Market Cap Listing
- Coin Gecko Listing

THIRD PHASE

Bigger and bigger

- NFTs Marketplace
- Special NFT Giveaway
- Metaverse Announcement
- Partnerships with major crypto actors/influencers
- Merchandising Platform Launching
- More CEX Listing
- Vote for Your Community-Driven Metaverse

SECOND PHASE

Events, giveaways & more

- Regular and Special Events (WE Sales and More)
- Audit
- Pancakeswap Launch
- History of won chests
- Prime Youtube Video Advertisement
- First CEX Listing
- First Holographic NFT
- Billboard Advertising via Coinzilla
- World-Wide Marketing Campaign
- Partnerships Consolidation
- Caesar Shiba Royalties Giveaway

FOURTH PHASE

Bring to perfection

- Shiba Dubai Tower (Metaverse)
- Steve Jobs Resurrection Project (Metaverse)
- Charities Events
- 3 New Tokens Gravitating Around CSR Ecosystem
- Fullforce Mainstream Marketing
- Collabs with Famous NFT Projects
- Caesar Shiba Community Metaverse
